View and study the
selected Work of Art!

Based on the Lincoln Center Aesthetic Education Model

and the philosophies of Maxine Greene, Howard Gardner and John Dewey

The design and content of the DeltaARTS Educator Workshop offers educators an opportunity to gain skills in implementing the Lincoln Center aesthetic education inquiry-based approach to teaching and learning.

This research-based approach is initially rooted in the study of works of art and employs four main concepts: art-making, questioning, reflection, and contextual research. Educators have the opportunity to unlock their own imaginative learning, while engaging with works of art with master aesthetic education teaching artists.

Explore and discuss the writings of
Dr. Maxine Greene, Howard Gardner
and John Dewey.
